

CABLE ASSEMBLY

Total Solution

Nissha Medical Technologies designs and manufactures reusable and single-use cables suitable to every need. Offering expertise in integrating cables into electrosurgical navigation and wearables device technologies, with cost-effective solutions to support low-volume and custom requirements.

Experienced product development team, minimized supply chain, and emphasis on vertical integration ensure quality, timeliness, and competitive pricing from planning to project rollout.

Design, Development and Manufacturing

Custom Cable Assemblies

Reusable/Disposable
Electrosurgical Cables
Patient Monitoring Cables

Private Label Cable Assemblies

Customer Branded
ECG Trunk Cables
Patient Monitoring Cables
SP02 Cables

Grounding Pad Cables
IBP Cables
Interconnect Cables

Cable Assembly Vertical Integration

Test Development
DV Testing
Extrusion
Fine Wire Molding

Marking/Labeling
Final Packaging
Assembly
